

SUBHADEEP BANERJEE

Machine Learning Developer | AI/ML Enthusiast | B.Tech Information Technology

2406106@kiit.ac.in | Jamshedpur, Jharkhand, India | [linkedin.com/in/subhadeep-banerjee-888674242](https://www.linkedin.com/in/subhadeep-banerjee-888674242) | +91 9771699694

PROFILE SUMMARY

Motivated B.Tech Information Technology student at KIIT University, actively contributing as a Machine Learning Developer at Cyber Peace Corps (KIIT Chapter) and a Core Member of AI/ML at E Labs. Experienced in Python, SQL, C, and C++ with a hands-on focus on building and deploying machine learning solutions. Passionate about applying data-driven approaches to real-world problems and proactively seeking opportunities to grow within AI and data science.

EXPERIENCE

Member AI/ML

Mar 2026 – Present

E Labs · KIIT University, Bhubaneswar · On-site · Full-time

- Core member of the AI/ML vertical at E Labs, KIIT's premier technical club.
- Collaborate with peers to design and build innovative AI/ML projects and prototypes.
- Contribute to workshops, knowledge-sharing sessions, and hands-on lab initiatives.

Machine Learning Developer

Sep 2025 – Present

Cyber Peace Corps: KIIT Chapter · Full-time · 7 months

- Develop and implement machine learning models to support cybersecurity and peace-tech initiatives.
- Leverage Python and SQL to build data pipelines, analyze datasets, and deliver actionable insights.
- Work collaboratively in a team environment to deliver impactful, real-world ML solutions.
- Apply academic knowledge in ML and AI to practical challenges in the cybersecurity domain.

EDUCATION

Bachelor of Technology – Information Technology

Aug 2024 – Present

KIIT – Kalinga Institute of Industrial Technology, Bhubaneswar, Odisha

- Pursuing B.Tech in Information Technology with focus on Machine Learning and AI applications.
- Active member of technical clubs (E Labs) and contributor to real-world ML projects.
- Email: 2406106@kiit.ac.in

TECHNICAL SKILLS

Languages:	Python C C++ SQL
ML / AI:	Machine Learning, Data Analysis, Feature Engineering, EDA, OLS Regression
Libraries:	NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Statsmodels
Tools:	Jupyter Notebook, VS Code, Git, GitHub, Google Colab
Soft Skills:	Collaboration, Problem Solving, Communication, Event Management

PROJECTS

Boston Housing Price Prediction

2025

Python · Pandas · Scikit-learn · Statsmodels · React · Recharts

- Performed end-to-end EDA including outlier detection, distribution analysis, and correlation heatmaps.
- Applied Pearson Correlation-based feature selection to identify key predictors of house prices.
- Implemented OLS Linear Regression with full residual diagnostics to validate assumptions.
- Built an interactive React dashboard with dark theme and amber accents to visualise model results.

OOP Vehicle Management System

2025

- Designed a Vehicle → Car/Bike class hierarchy demonstrating inheritance, encapsulation, and polymorphism.
- Integrated Stack and Queue data structures for vehicle processing and retrieval operations.
